GENERAL INFORMATION

We have received latest information that the customs office at Tehran Fairground has been closed. As a result, all incoming freight must be customs cleared at point of entry. Airfreight at IKA Airport, truck freight at central customs warehouse and ocean freight in Bandar Abbas. This complicates customs procedures.

All goods either for permanent import (brochures, give ways etc.) or temporary import must be cleared on temporary basis first and after end of show will be declared to customs as consumed, sold or to be returned. For all goods a guarantee / bond fee is required.

Furthermore, the customs duty & taxes for some consumed articles has been increased by 200-250 % which means that handling costs of consumable items may be very expensive. All applicable embargo regulation, bans and restrictions as well as other export restrictions by the European Community are need to be observed (if any).

IMPORTANT NOTES

- Goods for temporary and permanent import may be shipped as combined goods but need to be packed separately.
- All documentation must be in ENGLISH language.
- A full description of each product / item must be given. Do not just indicate the model name or model number. Describe the item – such as “1:3 scale (cutaway) missile model” or “souvenirs – lapel pins” or “wooden display plinth – floor standing” etc.
- Every individual item, including giveaway items and brochures, is to be given a value based on FOB value expressed in Euro or U.S. Dollar.
Do not indicate the phrase “No Commercial Value – NCV”.
- It is recommended to mail copies of the commercial invoices to our office prior to shipment in order to check if there’s any restrictions on the products or if there are any special import permits required.
- Please provide the Harmonized Customs Tariff for each product on the commercial invoice.
- **Certificate of Origin** is required for all goods which are intend to be sold during or after the Show and for all consumable goods except of catalogues/brochures and giveaway’s.
- **The import of food and beverages (no alcohol / pork meet) is very complicated and time consuming.**
The provision of Health Certificate and Certificate of Origin is therefore mandatory. In case you ship perishables please note that there are no cooling facilities at Airport, Central Customs or Fairground. Shipping is at owners risk
- If you intend to ship **hazardous goods** (paint, gasoline, lighters etc.) please ensure that all regulation for shipping hazardous goods are fulfilled. Please avoid to ship such goods because customs clearance is very complicated.
- **Videotapes / films / slides / CD** should be sent 5 weeks prior to show opening to **PANEXPO**. We will forward them to Tehran for censorship. Fees are for account of the shipper / exhibitor.
- We must receive the Combined Commercial Invoice and Packing List not later than the deadlines shown.

- The number of packages, weight and volume should tally with the details on CMR, Air waybills, Invoices and Packing lists.
- If there is a serial number available for a product please indicate it on the commercial invoice. This will assist temporary Customs formalities.
- Exhibitors are requested to declare products correctly on all documents. In case of discrepancies arising from customs examination, Customs may impose penalties as applicable. We do not accept any responsibilities in case of incorrect declarations by the exhibitor.
- It must be clearly stated on the commercial invoice if the goods are for temporary or permanent importation.
- For all consolidated shipments having more than one commercial invoice, a HAWB/HBL must be issued for each commercial invoice.

PACKING

It is essential that cases used to transport the exhibits are of sufficient strength and can withstand unpacking and repacking operations (e.g. during customs inspections).

Cases should therefore have pre-fabricated sections and should be constructed as a bolted returnable container.

Do not use pallets as packaging material (cartons shrink wrapped on pallet) in order to ship your items to Iran. We refuse any responsibility in such case!!!

ISPM15

Iran has implemented the requirements of the international standard on Phytosanitary Measures (ISPM15), "Guidelines for Regulating Wood Packing Material in International Trade", effective 1 January 2010. This implies that all raw wood packaging material entering and leaving Iran will have to be treated and marked in accordance with the requirements of ISPM 15.

The "Guidelines for Regulating Wood Packaging Material in International Trade" (ISPM15) are available at the web site of the International Plant Protection Convention <http://www.ippc.int>

CUSTOMS DUTY

The “Custom Authorities” levy customs duty on all goods coming to Iraq, which are sold/consumed/destroyed regardless if they are re-exported at the end of the show. Please note that customs duty is applicable on all brochures, give-aways and gift items being shipped to the show, immaterial if they are consumed or shipped back to origin. All these shipments are cleared on a basis against payment of 40% on CIF(cost, insurance, freight)-value of the goods as assessed by Iraqi customs or a minimum of USD 200 per shipment. All customs duty assessments are solely up to the discretion by Iraqi customs. Iraqi customs can re-evaluate the value declared on the invoices and the duty is calculated and outlaid as assessed by the Iraqi customs.

TEMPORARY IMPORT

Temporary import is allowed under temporary import bond (TIB) lodged with Iranian Customs.

Temporary Import Bond (TIB)

Our local agent TRCL can facilitate a TIB subject to a TIB Fee (Non-Refundable) at 6.0% of CIF value or customs appraised value, whichever is the greater.
